and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

this additional cost will result in me giving up on the use of my cellphone, since I only use it only as an emergency phone service and can't afford the proposed cost increase.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Andrew Carbone

death, I'm sure others can too. You don't have to have five cars, two boats and four homes (one for each season!) to survive! I know! I do it daily with no car, one house (rented) and no boat. Don't deny me communication as well.
Sincerely,

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.
